# Stannah

...*every  
solution*

Public access for disabled people is an essential part of every public building. At Stannah we can provide lifting solutions for most situations, manufactured to our customers requirements, delivered and installed on time and maintained in excellent working order.

Talk to Stannah about **Passenger Lifts**, **Platform Lifts**, or **Stair Lifts** and ensure your building says 'welcome' to everyone.

**BS 8300 recommends you consider lift provision in the following steps:**

**1** You should consider a conventional **PASSENGER LIFT** as a preferred option (fully automatic, regular duty).

## Stannah passengerlifts

Innovative lift engineering and manufacture mean Stannah's unique System 21 passenger lift range offers the widest choice of hydraulic passenger lifts for the low to medium rise market in the UK. Flexible solutions include structure-supported options for complete design freedom and new space saving motor-roomless options doing away with the need for a separate motor-room.

**Stannah - the complete choice of passenger lifts**

theidealsolution

**2** If you cannot accommodate a passenger lift, you could provide a **VERTICAL PLATFORM LIFT**.

## Stannah midilift

Vertical platform lifts for every application. A range of models ensure an economical solution to access for disabled people. Each lift can be installed to go through-the-floor or simply positioned where floor to floor access is required. They have manual controls, slow speed and are for light duty only.

A Stannah Midilift does not require a shaft or a pit and can be installed in a few days.

**Stannah - the complete choice of vertical platform lifts.**

## Why people buy Stannah

### INNOVATION AND TECHNOLOGY

Stannah continuously develop their products, using the latest electronics and microprocessors which have revolutionised lift control to give increased reliability, a large variety of control functions, compactness and reduced maintenance costs.

### QUALITY ASSURED, SAFE AND RELIABLE

Stannah is Quality Assured to ISO 9001. This guarantees you are dealing with a reputable company which has been externally assessed for their quality procedures. We embrace the processes of BS 8300: 2001 'design of buildings and their approaches to meet the needs of disabled people'.

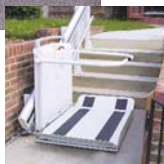

**3** If this is not possible you could provide a **PLATFORM STAIRLIFT** providing it does not restrict fire escape regulations.

## Stannah stairiser

The Stannah Stairiser simply carries a wheelchair user over straight and curved stairways. The Stairiser is simple to use and can be operated by the wheelchair user or by a companion/attendant. An optional fold down seat is available for ambulant users. When not in use the slim unit folds neatly away. Ideal for occasional use up a staircase.

**Stannah - the complete choice of platform stair lifts.**

the stairwaysolution

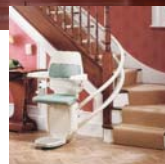

**4** Having considered the other options a **STAIRLIFT** could be a feasible solution to your access needs.

## Stannah stairlift

Providing seated travel for the user, Stannah Stairlifts can be fitted to most types of staircase from basic straight stairs to complete spirals. A purpose-built stairlift for outdoor use and straight stairs completes the range. Engineered to surpass the most stringent international stairlift standards and usually installed within the day, it may be an option worth considering.

**Stannah - the world's best selling stairlift.**

### CUSTOMER SUPPORT AT ITS BEST

The human touch...at Stannah we help you to plan your lift installation; what type of lift and where best to put it. We will be pleased to liaise with an architect, main contractor, client or consulting engineer to ensure the best possible solution is achieved.

### RELIABLE DELIVERY

Short delivery times are a Stannah speciality. It is our aim to complete the installation of every lift on time.

### SPARES AND AFTER SALES SERVICE

Stannah's network is spread right across the UK, ensuring we always provide an after sales service that is fast, reliable, efficient and ready to assist day or night. We offer a 24 hour, 365 a year call out capability.

### SUPPORTING THE BRITISH ECONOMY

Stannah is the largest independent British lift company in the UK with over 140 years of experience in the lift industry. Our outstanding reputation for service and quality means customers get the highest quality product, offering a wide range of choice and excellent value for money.

# The ranges that help you meet the requirements of the DDA and BS 8300...

A comprehensive range of fully automatic hydraulic passenger lifts for any low to medium rise building. All offer wheelchair capability and many models comply with Part 'M' of The Building Regulations. The range offers many options, including motor room-less technology, structure supported or wall mounted.

## passengerlifts

**Maxlift** - The heart of the Stannah passenger lift range, providing outstanding performance, durability and comfort levels. 6-16 person capacity.

**Piccolo** - Space saving, cost effective solutions for smaller premises in retail, commercial and leisure markets. 6-8 person capacity.

The Stannah Midilift Range of vertical platform lifts provides simple solutions to access, from just a few steps to up to 7 metres travel. They are designed for light duty by occasional users and are safe and simple to operate.

## midilift

**Midilift SL** - Fully enclosed model for internal use only. Up to 4 stops, over 5m travel. Range of platform sizes, finishes and 'customised' models available.

**Midilift DL** - Partially enclosed model for internal or external use. Up to 5 stops, over 7m travel. Range of cabin sizes and finishes available.

Platform stairlifts are ideal for buildings that have restricted space and are unable to accommodate a conventional lift or vertical platform lift. A Stairiser is a practical solution for travel over straight or curved stairs and is designed for occasional users.

## stairiser

**Stairiser SX** - Designed to run on a straight rail over a single flight of stairs. Units fold flat against the wall when not in use.

**Stairiser CR** - Designed for use on a curved rail, therefore suitable for any run of stairs with a single turn, multiple landings or spiral configuration.

Stairlifts may be used to provide occasional use in settings where full disabled access may not be possible. The Stannah range includes models suitable for curved and straight stairs and for most budgets.

## stairlift

**New generation of stairlifts:** available for both straight and curved staircases.

**Sofia** - The ultimate in comfort and style

**Solus** - Cool, clean contemporary design

**Saxon** - Classic good looks and slimline profile

**Sarum\*** - Traditional, timeless lines
