

A complete range of lift solutions providing
access for all

Stannah

passenger lifts • vertical & inclined platform lifts

Stannah access for all

Moving people smoothly around a school building is a challenging business, but we can help. At Stannah it is our business to make the movement of people worry-free, so when we supply lift access solutions it simply means everyone in your building will be able to access education.

Experience and Expertise

Our lifts are providing access in new and refurbished education buildings right across the spectrum of provision, from early years to universities, and throughout the UK. Whether your need is for lifts within a new school or college or an individual solution on an existing campus we know we can help.

Fit for purpose

Most school buildings evolve over a lifetime, creating additional levels and annexes that can present real access challenges for disabled people, pupils and staff alike.

At Stannah we will advise on the ideal solution for the people using your building, not just a solution for the building.

Access for all

All our lifts will help you meet the requirements of the DDA, Part M of the Building Regulations and BS8300. Our lifts comply with the relevant elements of EN81-70.

Experience and expertise you can trust

With over 140 years of engineering expertise you can rely on Stannah to provide you with the right product at the right price.

Advice and consultancy

Throughout your project you will find our reputation for outstanding customer support is well deserved. Our experienced staff are there to help you at every stage of your project.

a complete range of lift solutions

Passenger lifts

A range of passenger lifts designed to give you maximum choice and flexibility with outstanding performance, durability and comfort levels.

Vertical Platform Lifts

Providing practical access solutions for disabled people, the Stannah Midilift range provides vertical travel from just a few steps to 9 metres.

Inclined Platform Lifts
