**Stairiser platform lift**  
**can do for you.**

**Stannah**

**“We continue to learn from the people we invite to test our facilities. One of the solutions was so simple – a Stannah Stairiser CR. We are delighted with the increased freedom it brings to all our disabled visitors.”**

Jennifer Moran, Visitor Services Manager at Liverpool Cathedral

# What can our Stairiser platform lifts do for you?

**Stannah Stairisers provide access for people who have difficulty negotiating steps or stairs. They are inclined platform lifts that travel up and down a stairway. They carry one person simply and safely, with or without a wheelchair. Stairiser lifts are easy to install, easy to use and economical to run. Our customers know the Stannah brand stands for quality and reliability at affordable prices. They know that we take care at every stage of their purchase and through the product's life. Our Stairiser lifts simply make life a little easier.**

## **Stannah Stairisers are all over the UK**

- Providing individual access over changes in levels in retail outlets
- Helping disabled pupils and staff move freely around educational buildings
- Welcoming everyone to all levels of resource centres and libraries
- Ensuring museum and heritage sites can install a lift without compromising the fabric of historic buildings
- Enabling disabled people to access their employment, everyday
- Providing individual access to health buildings
- Making sure restaurants and bars can welcome everyone
- Opening up leisure and sports facilities to all members of the community
- Providing special access in public buildings

### **Stairiser helps to meet the requirements of:**

- The Equality Act (formerly Disability Discrimination Act)
- Part M of the Building Regulations (England and Wales) which cover the requirements that many new buildings must meet to ensure ease of access and use
- BS8300:2009 Code of Practice covering the design of buildings and their approaches to meet the needs of disabled people

great solution

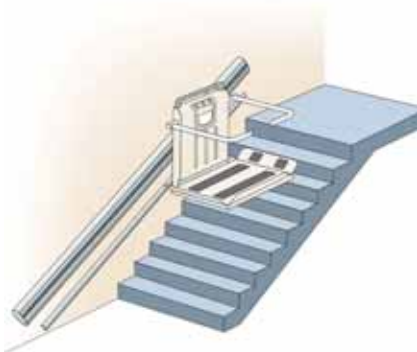

## Machinery Directive

All of our Stairisers are CE marked and comply with the latest Machinery Directive 2006/42/EC

**Our Stairiser inclined platform lifts are designed and manufactured to fit individual stairways. They can be installed inside or out, so provide great solutions for elevated entrances. They also provide our customers with a practical solution to providing access in premises that cannot accommodate a traditional vertical lift. Stairisers are simple to install and use and conveniently fold away when not in use. There are two models for straight or curved stairways, three platform sizes and a choice of finishes too.**

## Stairiser SX

**The Stairiser SX is designed to run on a straight rail over a single straight flight of stairs. The unit folds flat against the rail when not in use.**

### KEY FEATURES:

- Three platform sizes –
  - 750mm x 900mm
  - 810mm x 1050mm
  - 810mm x 1250mm<sup>#</sup>
- End or side access to the platform available
- Platform ramps rise automatically as barrier arms are lowered
- Soft start and stop for maximum comfort and safety
- Non-slip platform floor
- Barrier arms and platform can be operated manually in an emergency
- Optional battery back-up for lowering and raising platform
- Easily incorporated with minimal builders work
- Installed in one day, depending on site conditions and lift travel
- Suitable for indoor and outdoor use

<sup>#</sup> Part M (England and Wales)

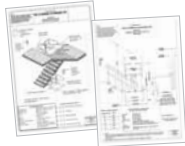

### TECHNICAL SPECIFICATIONS:

Maximum load	230kg wheelchair and occupant
Speed of travel	0.1 m/s
Drive system	Motorised carriage climbs up and down a rigid aluminium rail with positive rack and pinion drive and automatic brake
Carriage control	Joystick control on carriage Constant pressure wireless control buttons at top and bottom landings
Power supply	240v single phase

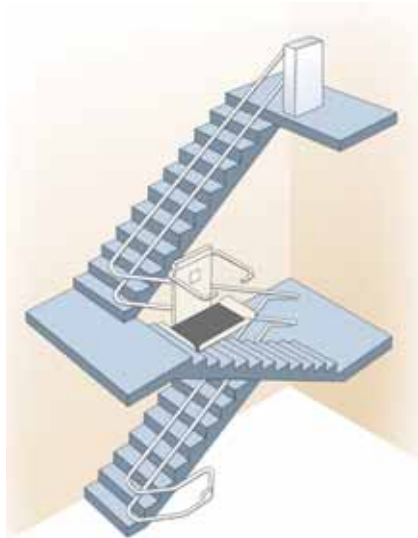

We simply try to make life a little better for our customers and the end users of our lifts. All our lifts are manufactured to the highest standard. Our experienced engineers will assess your individual needs and advise on the ideal product. Our designers will work with you through to manufacture, our fitters will install your lift and our service engineers will look after your lift, locally, from one of our eleven service centres nationwide.

Data sheets giving further technical information are available – please call us on 01264 339090 for a copy. Alternatively, you can download a PDF from our web site at [www.stannahlifts.co.uk/downloads](http://www.stannahlifts.co.uk/downloads)

## Stairiser CR

**The Stairiser CR is designed for use on a curved rail, therefore suitable for any run of stairs with a single turn, multiple landings or spiral configuration.**

### Key features of the Stairiser range include:

- Simple to use and can be easily operated by the wheelchair user and/or a companion
- Fully automatic, with electrically controlled folding platform and barrier arms
- Barrier arms surround and protect the user, locking down before the platform moves
- Platform stops automatically when its sensitive safety edge detects an obstruction
- Safe access to and from the lift platform with ramps that rise to secure the wheelchair when the platform is in motion
- The lift platform folds neatly away against its smooth operating rail when not in use, leaving the maximum width of the stairway for pedestrians – ideal for a busy building
- Fold-down seat available as an option

### KEY FEATURES:

- Three platform sizes –
  - 750mm x 850mm
  - 800mm x 1000mm
  - 800mm x 1250mm<sup>#</sup>
- End or side access to the platform available
- Platform ramps rise automatically as barrier arms are lowered
- Soft start and stop for maximum comfort and safety
- Non-slip platform floor
- Barrier arms and platform can be operated manually in an emergency
- Optional battery back-up for lowering and raising platform
- Easily incorporated with minimal builders work
- Installed in 3-4 days, depending on site conditions and lift travel
- Suitable for indoor and outdoor use

<sup>#</sup> Part M (England and Wales)

### TECHNICAL SPECIFICATIONS:

Maximum load	225kg
Speed of travel	0.06m/s
Drive system	Wire rope pulled by electric motor
Carriage control	Joystick control on carriage Constant pressure wireless control buttons at top and bottom landings
Power supply	240v single phase or 415v three phase

# Stannah a family of lift expertise

Stannah help people get on with their lives. Whether it's a lift at the station, a dumbwaiter at the coffee shop, a passenger lift at the office, a platform lift at the library, an escalator in the shopping centre, a moving walkway at the supermarket, a goods lift at the pub or a stairlift at home – we are there quietly helping life happen.

We design, manufacture, supply and install lifts to help life flow. We do this with the utmost care for our customers, our passengers and our staff. Our products are quality engineered, safe and reliable and supplied in the knowledge that we can maintain them 24/7 – efficiently via our service branches right across the UK.

By continually investing in new technologies, new products and our highly trained nationwide workforce we deliver value-for-money excellence. We are proud to be an independent family company whose specialist product and service divisions give our customers expert support right across our portfolio.

## More products in the Stannah range

### Passenger lifts

We first engineered passenger lifts in the 1860s. Today we offer our customers more choice and flexibility. Our MRL lifts are hydraulic or traction, wall-mounted or structure-supported, low or medium rise to carry from 6-33 people and we have a wealth of finishes to enhance any interior.

### Escalators and moving walkways

Stannah supplies, installs and maintains a range of escalators and moving walkways for applications across the UK. These products are maximising useable space in retail environments and moving people safely and efficiently in busy public areas.

### Major lift refurbishment and bespoke lifts

Stannah undertakes special lift refurbishment and modernisation projects, often to maximise the use of new technology and save operating costs. We also supply and install bespoke lifts for unique places, working with our clients to their specifications.

### Goods and service lifts

When it comes to moving anything from hot plates to heavy goods pallets, Stannah can provide the solution. The Microlift is Europe's best selling dumbwaiter for loads from 50-100kg. Our Trolleylift range can handle loads up to 300kg with floor-level loading when required. When loads up to 1500kg need to

be moved the Goodsmaster range, which includes an attendant controlled lift, is the answer. Our heavy duty solutions for loads up to 3000kg complete the range.

### Lift service and repair

We provide local service, nationwide, from our network of branches across the UK. Our highly trained engineers look after thousands of lifts 24/7, 365 days a year – our own products and most types of lifts from all other manufacturers.

And last but not least...

### Stairlifts

Stannah stairlifts are as stylish as they are practical. Since 1975 over 400,000 units have been sold worldwide, making Stannah global market leaders in stairlifts.
