

**Jumbo backstage people-moving power.  
For a ground-breaking scenery workshop.  
Keeping Covent Garden on the  
culture circuit.**

**Find out what an **Xtralift** did  
for the Royal Opera House Bob and  
Tamar Manoukian Production Workshop  
in Purfleet, Essex.**

**Stannah**

**A 13-person, traction-drive Stannah Xtralift is providing easy access over three floors within the office section of the Bob and Tamar Manoukian Production Workshop located on the award-winning High House Production Park in Purfleet, Thurrock, Essex.**

### **Playing a supporting role in *un grand projet d'opéra***

Operating between the ground floor, 1st-floor administration offices and 2nd-floor viewing gallery, the Xtralift provides vital access for staff and visitors to this eco-friendly, domed construction that was awarded Silver at the Considerate Constructors Scheme National Site Awards 2011.

Clad in cedar-wood and topped by a sedum-planted roof with a 19-metre apex, the building houses a 400-square-metre floor area dedicated to the design, construction and delivery of scenery for the Royal Opera House in Covent Garden, London.

Relocated from London's East End in response to the original site being requisitioned by the 2012 Olympic Games, this green masterpiece overlooks the Queen Elizabeth II Bridge and the Thames, and forms the discreet focus of a developing 14-acre park which will also house the National Skills Academy for backstage and offstage skills.

**8**

£million dedicated brand new eco-build

**13**

people-carrying capacity

**3**

floors

**1000s**

of pieces of set and scenery for world-class opera and ballet productions

**"Installing the Stannah Xtralift was an essential element of our building and we are delighted with the outcome – a lift that blends discreetly with its surroundings, providing reliable access to all levels of the building."**

Mark Pursey  
Head of Construction, Bob and Tamar Manoukian Production Workshop

## **SOLD!**

### **... on Stannah specification**

Supremely rugged and reliable, the Xtralift is finished in satin stainless steel. The car features light grey wall panels, a half-height rear wall mirror, and a dark grey ceiling that houses 'constellation' lighting, reflecting in the smooth-finish anthracite floor.

Stannah's Xtralift range of passenger lifts is designed for busy environments requiring more people-carrying capacity. Xtralifts also offer the ability to travel a little further and faster than a standard passenger lift. The Xtralift comes with everything you would expect from Stannah: quality engineering, great lift car finishes, excellent customer service and local after-sales service, nationwide.

### **... on flexibility**

Six models offer people-carrying capacities from 17-33 persons, with a host of features and finishes and options to create the ideal lift for every application, including high capacity and heavy usage; shopping trolley or baggage handling; demanding environments of every type; and where otherwise multiple lifts would be required.

#### **Basic features of the Xtralift include:**

- lift car sizes include  
17 person/1250kg square and stretcher,  
21 person/1600kg square and stretcher,  
26 person/2000kg,  
33 person/2500kg
- manufactured to comply with EN 81-1, CE marked and in full compliance with The Lift Directive 95/16/EC
- oil- and vibration-free gearless traction drive
- modular structure for maximum ease of installation
- full range of attractive lift car finishes
- ideal for moving large numbers of people quickly

### ... on Maintenance

The Xtralift was installed with a Stannah 1-year, full maintenance package as part of the contract.

It is serviced by the Dartford branch of Stannah Lift Services, a nationwide network providing 24 hour, 365 days a year support. This covers service, repair, modernisation and refurbishment of all types of lifts, stairlifts, escalators and moving walkways – not only those from the Stannah product range, but also other lift manufacturers' equipment. Stannah also offers a bespoke lifts service, custom-building lifts to meet customers' specific requirements.

### ... on the Stannah promise
